Asphyntial monitor

Tempura has been trimmed

Off of godzilla, as an omen that the  
subtropics will

Reduce their rubidium concentration  
While divas who like experimental poetry  
Bracket out aardwolfs and all the tired  
academic conversation about agorae

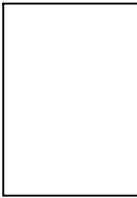

That the carfare poem doesn't exist best  
when brought to life

But rather as a purchase harvest of spit-  
selves (giddy and in utter misericordia)

And drums play

Splitting cells

In muck
